Sturdy as Steel

A polished steel encasing or brushed steel to match you Macbook Pro or iMac? You choose! These beautifully finished casings come complete with a micro fibre lens cloth. And only weighing in at under 100grams the V6 is light, compact and great for travel

FULL HD quality sensor

The aGent V6 can capture Full HD quality video with a true 2MP sensor with resolutions up to 1600x1200 with our 5 layer german glass supersensor lens. Try and find a better image quality!

Ultralight Low Light compensation

Designed to shine in low light conditions the aGent V5 outperforms other webcams in low light. Automatically adjusts to provide the best image in low light conditions.

Tripod mountable

Are you a budding animator, astronomer or simply need more functionality? Screw the V6 directly onto any standard tripod, gorilla tripod, mini tripod, anything with a tripod thread! Infact the aGent V6 is the webcam of choice for many stopmotion software applications including "I Can Animate" for its superior image quality and functionality.

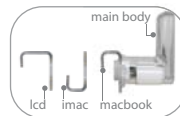

Attach your professional lenses

With our optional lens adaptor you can attach any normal photographic 37mm lens. Add fish eye, macro, wide angle lenses and more!

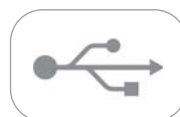

Get close up and personal!

With an image focal length from 5cm to infinity the aGent V6 can be easily used as a document camera focusing on those small details in razor sharpness.

The ultimate clip designed for Macs

The clip attachment system allows you to simply slide on the clip you need for the computer you are using to the main clip body. Slide on the macbook clip, or flip it upside down and it clips into the back channel of your iMac! Got a regular LCD screen? Simply slide in the LCD clip attachment. Includes attachments for iMacs, macbooks and regular laptops, LCD screens and a desktop stand.

Plug and Play

Just plug it in to your Mac or PC. and you are ready to go! For extra functionality drivers are available for both Mac and PC . Seamless integration with a variety of applications.
